DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 58-75 and 78-79 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The amended claim language to claims 58, 72 and 73, "*the engagement devices joined with lugs adjacent to an initial lug have circumferentially shorter engagement surfaces than other segmented lugs*", is indefinite. Firstly, "*the engagement devices*" is indefinite because it lacks antecedent basis as the element is introduced in the claims in the singular. Examiner notes dependent claim 65, for example, further limits the engagement device as being segmented. Secondly, the limitation "joined with lugs" lacks antecedent basis as lugs have been introduced as "segmented lugs" and it is not clear if this is the intended reference, as later in the amended language, the term "other segmented lugs" is used. It is suggested Applicant reword the claim to better define that the engagement device comprises ribs on the segmented lugs, and then cancel the dependent claim 65, in order to properly introduce the engagement device as ribs which are disposed on all/most of the segmented lugs. Lastly, Examiner notes the very last part of the amended language should be further amended to state "...surfaces than the engagement device segments on other segmented lugs" or something similar such that it is clear the circumferential distance is measuring the engagement device segment, instead of the lug's circumferential extent.

Response to Arguments

3. Applicant's arguments with respect to claims 58-77 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3781

Allowable Subject Matter

4. The claims will be allowable if rewritten to overcome the rejections under 35 U.S.C. 112, 2nd paragraph. However, should the scope of the claim change beyond that which has been previously considered, any amendment after final will not be entered as it would require further search and consideration.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
